This Wild West experience is completely customizable and caters to everyone from first-time shooters to advanced marksmen, offering motorized, standard and wobble traps, and even a five stand for those looking for more of a challenge.

Each person will have a 12-gauge shotgun and two boxes of shells (50 rounds) to start, with more available at an additional cost, and receive training and all of the safety essentials from experienced instructors. Range time is 1-2 hours.

## GEOHERMAL CRATER

Nestled in Heber Valley lies one of Utah's best kept secrets. This geothermal hot spring that was created over 10,000 years as melting snow went deep into the earth and percolated upward from being heated by the earth's interior. As the warm water rose to the surface, it picked up minerals-eventually creating the beehive-shaped limestone deposit.

The natural phenomenon attracts visitors from all over the world and truly is a once-in-a-lifetime experience. Mineral rich water maintains a temperature of 90-96degrees Fahrenheit year-round and you can relax in the water while the opening at the top of the dome lets in the crisp mountain air and sunlight.

With a depth of 65 feet and a 400-foot-wide base, the hot spring is the ultimate destination for scuba divers and scuba enthusiasts across the globe. You can even get scuba certified at the only warm scuba destination in the Continental US.

If scuba diving isn't on your agenda, you can simply swim, soak, snorkel, SUP, or even just tour the Homestead Crater. Custom-built decks that go into the water make it easy to sit back and recharge in the magic of the volcanic waters. Lifejackets and snorkels are supplied so the whole family can experience the warm mineral water. This trip lasts 2 hours, with a minimum of two people, and varies based on weekday or weekend rates.

*Additional gear rentals available. This excursion is unavailable on Sundays*

## ICE CASTLES

Ice Castles is an award-winning frozen attraction located in five cities across North America, and you can find one of them in Midway, Utah! The experience is built using hundreds of thousands of icicles hand-placed by professional ice artists. The castles include breathtaking LED-lit sculptures, frozen thrones, ice-carved tunnels, slides, fountains and much more.

Explore caverns and walk beneath archways adorned with hand-placed icicles which dangle overhead like a beautiful, winter chandelier, squeal with delight as you race down one of our exhilarating ice slides designed for people of all ages, get lost in a maze of ice where magic and wonder await around every turn, and squeeze through passageways just large enough for children and adults who are adventurous enough to crawl.

Whether you're planning a visit during the day or night you can expect to have a spectacular experience. The daytime allows you to appreciate the deep blues that only the natural light of the sun brings out in the ice, as well as the details in the Ice Castles. At night LED lights illuminate Ice Castles from within as you experience the majestic creations under the stars.

*Be sure to dress warmly so you can fully enjoy the time spent inside anticipating the night to come, as guests cannot leave the venue and come back in the same day.*

*Typically open in January-February, but the opening dates differ year to year as Ice Castles operations are completely dependent on weather.*

## RAIL ROAD

Since 1899, the Heber Valley Railroad has been taking passengers on a fabled journey. This experience is more than just a mode of transportation: it's a trip back in time on lovingly restored rail cars with entertaining musicians and artists. Out your window, the scenery along the route is spectacular during every season of the year. Wild animals and birds are commonly seen along the tracks, including deer, elk and eagles.
